Class Distribution Policy: Encouraging Inclusivity and Adaptability

Dear UCA Parents and Guardians,

We hope this message finds you well. As many of you know, each new academic year brings a fresh start, offering students the chance to form new connections, meet different peers, and grow in diverse learning environments. The class distribution process is thoughtfully designed to support the varied needs of all our students.

While we understand the personal wishes of students and families, we are unable to accommodate individual requests, as this would not align with our commitment to providing an equitable and balanced environment for all. Our focus remains on fostering essential social skills, adaptability, and resilience in every student.

We believe it's important that, by the time our students graduate, they do so as a unified class—one that has shared experiences and built lasting memories with a wide range of their peers. This not only strengthens their sense of belonging but also ensures they leave UCA with a deeper connection to their peers.

We appreciate your understanding and continued support as we encourage students to embrace change, form bonds across the entire grade, and cultivate a sense of unity.

Thank you for your cooperation.
